

**Improve your business credentials
Open up new markets
Keep in touch with your customers**

**...just a few of the many reasons choosing
an iphone app is the right choice for your business**

**Our latest award winning
iphone App
Created and developed
by JCS Computing**

Our latest App has been designed as a Sales Tool for a leading pond liner company's Retail and Landscape customers. The brand NEW iPhone and iPad -Pond Liner and Seaming app - contains all the information you needed to help in the choice of pond liner, material specifications, sheet sizes etc, and through the video tutorials it even shows how to join pond liners using the excellent Firestone QuickSeam product range of adhesive tapes and primers.

This App has just won a Best New Product Award at AQUA2011

Some features of the New App include :-

Pond Liner Material Specifications and Sheet Sizes - physical properties and sheet size options, you can make side by side comparisons of various materials available in our range. The sheet size tables offer a quick reference guide to the sizes held in stock as standard products for immediate despatch, and also the fabricated sizes we can make to order.

Firestone QuickSeam™ Video tutorials - see how straight forward it is to join pond liner using the Firestone QuickSeam splicing products.

Box Welded Pond Liners - are explained along with a gallery of recent projects completed by some of our experienced Aquatic landscaping customers.

Download section - makes all our product brochures and Technical spec sheets ready to view, print or email without having to go on-line to the main website.

Website links - to our new iPhone mini-website and email/telephone direct contact to our Sales Office at Wyboston from your iPhone at the touch of a button.

News Feed delivers all the latest news and offers from the company direct to your iPhone via the app.
